REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicants' arguments on pages 12-14 of their amendment filed January 20, 2006 stating that the addition of the structural limitation of "a generally vertically disposed support structure *extending from the floor to the ceiling of the room*" to independent claims 1, 60 and 62 as well as that of "a telescopic arm having a *tubular* first portion...and a *tubular* second portion that is extendable and retractable relative to the tubular first portion, a part of the tubular second portion which is received in the tubular first portion *being surrounded by the tubular first portion*" to independent claim 51 sufficiently overcome the prior art rejections contained in the Office action filed September 28, 2005. Moreover, Applicants' amendment rewrites claims 13, 17 and 18 into independent form; these claims were indicated in the previous Office action as containing allowable subject matter. Since independent claim 31 was allowed in the prior Office action and a review of the cited prior art as well as an updated search of the prior art did not yield any other references which are considered to disclose the instant invention as claimed, it is deemed that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..
